+ Django Basics

+ Machine Learning

Your Proficiency Level

LEVEL 3 OF 4

Beginner L1

Learning the fundamentals & basic core concepts

Intermediate L2

Comfortable building working projects independently

Advanced Active

Deep technical mastery & complex problem solving

Expert / Master 

Professional or published industry experience

Short Bio & Teaching Style

 138 chars

I have completed 3 university data science courses and built data scrapers. I prefer hands-on coding sessions at the campus library or Google Meet.

Students love interactive screen shares

Verified Proof / Portfolio

github.com/student-de

 Verified

Repo contains 4 Jupyter projects

Attach certificate, repo, or Figma link

Previous Session Artifacts

Available Formats

In-person on campus

Library pods, student union, quad

Virtual / Remote

Google Meet, Discord screen share
