Data Science Python

Kavindi is an incredible peer mentor! She broke down complex web scraping logic with BeautifulSoup and helped debug my regex issues in minutes. Truly knowledgeable and patient.

Calculus II UI Design

I traded Calculus tutoring for her mobile UI design critique. Her guidance on typography scales and layout grids transformed my semester project completely. Would 100% recommend!

French Python

Very supportive session! She provided great exercises and links to GitHub documentation that saved me hours of homework frustration.

Organic Chemistry UI Basics

Super punctual, energetic, and explained design fundamentals in a way that was immediately applicable. Awesome study partner!
